Experience

Team Lead · HSE University

June 2025 — Present

- Led a team of 8 people (3 frontend, 2 backend, 2 QA, 1 designer) developing a project activity platform.
- Conducted Code Reviews and implemented unified code standards.
- Formulated technical specifications based on customer requirements, decomposed tasks, and planned sprints.
- Configured full CI/CD cycle in GitLab (linting, testing, building, deploying), organized testing and production environments.
- Participated in designing user scenarios and selecting architectural solutions.

Frontend (Part-Time) · HSE University

Sep 2024 — June 2025

- Developed the Frontend part of the platform using Next.js + TypeScript.
- Implemented new user interfaces and refactored existing sections.
- Engaged in bug fixing and improving application stability.

Fullstack (Part-Time) · Renics

Sep 2024 — June 2025

- Improved the online store: Frontend (Next.js + TS) and Backend (Loopback).
- Implemented cart functionality and delivery cost calculation via APIs of various services (CDEK, Russian Post, etc.).
- Updated the admin panel for order management and content editing.
- Implemented a client invoice generation system.

Frontend Developer · SubProject

Sep 2023 — Sep 2024

- Developed a web service for designing equipment wiring diagrams (TypeScript + Canvas).
- Implemented a graphics engine from scratch for rendering diagrams, positioning components, and editing links.
- Created an auto-routing algorithm for wires with obstacle avoidance and intersection visualization.

Frontend Developer · Realytics

Feb 2022 — Jan 2023

- Developed analytics components (tables, charts, filters) using Vue 3.
- Increased site performance through caching and component optimization.
- Implemented internationalization (i18n) and connected error monitoring (Sentry, Telegram).
- Configured CI/CD pipelines via Github Actions.

Frontend Developer · Online Solutions

July 2021 — Feb 2022

- Developed the frontend part of websites (React, Vue, Svelte).
- Developed a mini-application for VK (VK mini apps).

Skills

Languages

JavaScript, TypeScript, Python, SQL, HTML, CSS, SCSS

Frameworks & Libraries

React, Next.js, Vue (Vuex), Redux, Nest.js, Node.js, Express, Electron

Tools & Platforms

Git, Docker, PostgreSQL, MongoDB, GitLab CI, GitHub Actions, Figma

Languages

Russian (Native), English (B2)

Education

HSE University, Moscow
2027

Bachelor's, Infocommunication
Technologies and Communication
Systems (MIEM)

Projects / Media
